ABOUT THE NATIONAL SEMINAR

Dear Sir/Madam, It gives us an immense pleasure to cordially invite you to participate in the **One Day National Seminar on 'Microbes For Sustainable Biosphere'** going to be held on **4th January 2025** to explore the scientific excellence growing in the field. The objective of this National Seminar is to bring together researchers, academicians as well as industrial professionals in the domain of interest from around the country to present their research work and development activities in the field of Microbiology and Life Sciences. The aim is to give them a forum for exchanging information through the presentation and discussion of paper dealing with wide variety of related topics. We assure you that the forum will provide an excellent opportunity to all the participants for fruitful scientific deliberations. It will help in motivating the young aspirants to involve themselves in global research and to contribute in nation development. Microbiology is one of the fastest growing sectors in world which involves the use of biological resources to make products beneficial to humans. This National Seminar aims at educating young entrepreneurs about Bio-entrepreneurship and providing them with a platform where they can interact with industry professionals to expand their knowledge. The attendees will explore entrepreneurial opportunities in biological sciences and will be trained on how to set up business ventures. Interactions with the other students and the faculty attending will provide them opportunities for collaborations as well as the confidence to establish their own start-ups. The esteemed national renowned speakers are addressing the delegates. We welcome all the scientific fraternity to attend this event and make this a grand success.

THEMES

Microbial diversity, Microbial interactions, Agriculture Biotechnology, Forest and Microbial Technology, Aquatic Biotechnology, Food Biotechnology, Environmental Biotechnology, Industrial Microbiology, Medical Microbiology, Nano-Biotechnology, Bioinformatics, Bioremediation, Bioleaching, Biosensor, Biodiversity, Plant pathology, Microbial Physiology, Microbial production of bioactive compounds, Antibiotics, Space Biotechnology, Bioenergy, Plant tissue culture Microbiology for Mankind, Microbiology for Sustainable Development , Plant Microbe Interactions , Climate Change and Agroecosystem :Effect on soil microbial diversity , Vaccine Development for Life , Entrepreneurship and IPR , Agriculture and Environmental Technology , Biodiversity Conservation , Biofuels and Bioenergy , Drug Design and Delivery , Marine Microbiology , Medical Microbiology , Microbial Nanotechnology , Molecular Pathogenesis and Diagnosis , Pharmacological Microbiology, Plant Pathology , Plant and Animal Biotechnology, Dairy Microbiology, Animal husbandry Applied Sciences , Food Microbiology, Advanced Microbial Diagnostics/Detection Tools, Virology & Viral Pathogenesis, Microbial Ecology, Antimicrobial resistance, Pre & Probiotic development, Ethical & Social implications of microbial research, Enzyme technology.

ABOUT THE COLLEGE

It was in 1935, when the great sanyasi, freedom fighter and the prime leader of Hyderabad Mukti Sangram, an MP, Swami Ramanand Teerth came over to Ambajogai and officially established and started this institution with two objectives – to strengthen the Indian freedom movement and educate the poor Marathwada students. The main objective of this institution has been, since then Patriotism, Nation building, Education, Democracy, Secularism and Upliftment of the poor sections of the society. The institution has grown into a large

banyan tree during the last ninety years due to the honest, sincere and tireless striving of these Society authorities (Rev. Babasaheb Paranjape, Hon. Purshottam alias Bhausaheb Chousalkar, Hon. Shridhar Soman, Hon. Shivajirao Chousalkar, Hon. Adv. Trimbakrao Khursale, Dr. Vyankatrao Deshpande, Rajarampant Sonwalkar, Hon. R.D. Deshpande, Bethuji Guruji, Hon. Balirampant Kamkhedkar, Hon. E.M. PLACES TO VISIT:

Yogeshwari Devi Temple, Ambajogai: 1 km away from the College. Yogeshwari is a Sanskrit name meaning "Goddess Durga". Sri Yogeshwari is an ancient temple of Goddess Durga, located in Ambejogai, one of the Goddess Shaktipeeths. Yogeshwari Temple is dedicated to Goddess Yogeshwari who fulfills all the wishes of her devotees.

Vaidyanath Temple, Parali : 20 km away from the College. Parli Vajinath Jyotirlinga, one of the twelve sacred Jyotirlingas in Hinduism, holds a significant place in the religious and cultural landscape of India. This ancient temple is dedicated to Lord Shiva, and it is believed to be associated with many legends and myths.

Tuljabhavani Temple, Tuljapur: 110 km away from the College. Shree Tulaja Bhavani Temple is a Hindu temple dedicated to goddess Bhavani. It is located in Tuljapur in Dharashiv district of Maharashtra, India, and is considered as one of the 3:1/2 Shakti Pithas. The temple was built in 12th century CE by Maratha Mahamandaleshwara Mārādadeva of the Kadamb dynasty.

CALL FOR ABSTRACT/FULL LENGTH PAPERS

Abstracts and Original, unpublished, and plagiarism-free research articles are invited for publication and presentation at the National Seminar. The full length selected research papers will be published in UGC CARE Approved Journal (**IJRAR- INTERNATIONAL JOURNAL ON RESEARCH AND ANALYTICAL REVIEWS**). Submit the soft copy of the paper to microbeyma@gmail.com on or before 22th December 2025. Article should be typed in MS-WORD with A-4 size, maximum 2000 words. Use Times New Roman with font size 12 having 1.5-line spacing. Figures should be inserted in JPEG/TIFF format with dpi more than 300. Tables should be included with proper formatting. The reference style should be as per the journal style.

Article processing fee (Rs. 600 /-) for the accepted manuscript will be charged separately.
